STOHN
SOUTH TEXAS ORAL HEALTH NETWORK

“Dedicated to improving quality care by conducting oral health studies on topics of interest and importance to you and your practice”

STOHN is a Community Engagement project of the Institute for the Integration of Medicine and Science

The project described was supported by the National Center for Research Resources and the National Center for Advancing Translational Sciences, National Institutes of Health, through Grant 1UL TR001120. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH.
WHAT IS DENTAL PRACTICE-BASED RESEARCH?
- Research conducted in clinical practice by dental practitioners and their staff at no cost to the clinic
- Designed to answer questions that dentists face in the routine care of their patients

WHAT IS STOHN?
- Our South Texas research network!
- South Texas dentists working to improve the quality of oral health care for their patients

WHO CAN JOIN?
- Any dentist or dental hygienist in South Texas
- Membership is free!

HOW CAN I GET INVOLVED?
- Complete a survey about your professional background, practice and patients
  Decide your level of involvement:
  - Full: Participate in surveys, in-office research and receive correspondence
  - Limited: Participate in surveys and receive correspondence
  - Informational: Only receive correspondence.
- Participate in annual meetings with your colleagues

WHAT ARE STOHN’S FUTURE RESEARCH PLANS?
- Prevalence of Molar-Incisor Hypomineralization
- Oral Cancer Knowledge Assessment

HOW DOES STOHN RELATE TO THE NATIONAL DENTAL PBRN?
- With STOHN, you can research issues that are important to your practice!
- STOHN studies are building blocks for National Network projects
- You can join both!
