The following list of resources has been adapted from the National Cancer Institute (NCI) Training Institute for Dissemination and Implementation (TIDRIC) OpenAccess available at [https://cancercontrol.cancer.gov/IS/training-education/tidirc/openaccess.html](https://cancercontrol.cancer.gov/IS/training-education/tidirc/openaccess.html).

**MODULE 1: Introduction to Dissemination & Implementation**
Dr. Russ Glasgow, University of Colorado School of Medicine, Denver (32 mins.)

**Suggested Readings**

**Web Resources**

2. **Sample Grants hosted by UNC** - [https://tracs.unc.edu/index.php/services/proposal-development/sample-applications](https://tracs.unc.edu/index.php/services/proposal-development/sample-applications)

**Self-Reflection Question**

1. What changes, if any, would you make to your aims page considering the resources and readings provided? Use online resources of funded grants as potential models for thinking through how aims could be revised.
MODULE 2: Fidelity & Adaptation
Dr. David Chambers, National Cancer Institute (38 mins.)

Suggested Readings

Self-Reflection Questions

1. Will you need to make any adaptations to your evidence-based intervention? If so, what aspects might need to be adapted, and what process would you use to guide those adaptations? Will you be considering how the intervention is likely to be adapted as it is delivered?
2. Will you be measuring and monitoring the fidelity with which the evidence-based intervention is delivered? If so, how? If not, why? To what degree is there evidence that associated level of fidelity with patient outcomes?

MODULE 3. Overview of Dissemination & Implementation Models
Dr. Wynne Norton, National Cancer Institute (26 mins.)

Suggested Readings

Web Resources
2. EPIS Framework Site - https://episframework.com/
**Recommended Resource List for the Development of Dissemination & Implementation Research Studies**

Implementation Science Webinars Recordings on D&I Models:

1. **Consolidated Framework for Implementation Research (CFIR) by Laura Damschroder**
   [https://www.youtube.com/watch?v=KAJ-oCJyWcs](https://www.youtube.com/watch?v=KAJ-oCJyWcs)

2. **Exploration, Preparation, Implementation, Sustainment (EPIS) by Greg Aarons**
   [https://www.youtube.com/watch?v=OYw6g0F1rTs](https://www.youtube.com/watch?v=OYw6g0F1rTs)
   Interactive Systems Framework (ISF) by Abe Wandersman
   [https://www.youtube.com/watch?v=Ike0t6Fd_1k](https://www.youtube.com/watch?v=Ike0t6Fd_1k)

3. **Knowledge to Action Framework (KTA) by Sharon Straus**
   [https://www.youtube.com/watch?v=ASQhwjfOYhw](https://www.youtube.com/watch?v=ASQhwjfOYhw)

4. **Promoting Action on Research Implementation in Health Services Framework (PARIHS) by Alison Kitson & Gill Harvey**
   [https://www.youtube.com/watch?v=t4Joti5RTzA](https://www.youtube.com/watch?v=t4Joti5RTzA)

**Self-Reflection Questions**

1. Which model or combination of models is most applicable to your proposed study and why?
2. How might your selected model(s) guide or inform other aspects of your study (e.g., hypotheses, measures, outcomes, processes, selection of strategies, etc.)?

---

**MODULE 4. Introduction to D&I Measures**

Dr. Cara Lewis, Kaiser Permanente (35 mins.)

**Suggested Readings**

**Self-Reflection Questions**

1. What outcomes are you measuring in your study, how are you measuring them, and why are you measuring them?
2. What processes are you measuring in your study, how are you measuring them, and why are you measuring them?
MODULE 5. D&I Designs Overview
Dr. Greg Aarons, Univ. of California San Diego (65 mins.)

Suggested Readings

Web resources

1. NCI Implementation Science Webinars on D&I Models: Hybrid Designs by Geoff Curran
   [https://www.youtube.com/watch?v=qrOKhS1RWZk](https://www.youtube.com/watch?v=qrOKhS1RWZk)

2. Community Based Participatory Approaches by Nina Wallerstein & Bonnie Duran
   [https://www.youtube.com/watch?v=OGJiAzlcnQA](https://www.youtube.com/watch?v=OGJiAzlcnQA)

Self-Reflection Questions

1. What is your proposed study design? Why is that the best design to answer your research questions or hypotheses?
2. Will you be incorporating a mixed methods design into your study? If so, what design? If not, why?

MODULE 6. Implementation Strategies
Dr. Prajakta Adsul, National Cancer Institute (19 mins.)

Suggested Readings

Self-Reflection Questions

1. What are the specific implementation strategies that you will be focusing on in your proposed research and how have you selected them?
2. How might you link specific implementation strategies to the context in which your work is set?
3. Bonus: Pick at least one implementation strategy of relevance to your work and describe it using Proctor’s specifications.

Prepared by: Dr. Kathleen Stevens, Dr. Robert Ferrer, Elisabeth de la Rosa, Dr. Erin Finley, Dr. Bertha “Penny” Flores, Dr. Dana Forgione, Dr. Polly Noël, Dr. Timothy Reistetter, Dr. Melissa Valerio-Shewmaker, and Dr. Kevin Wooten
