

2026 Virtual T1 to T4 in 3 (Minutes) Challenge

Friday, September 4
9-10:30 am

FREE
EVENT!

WHAT IS THE T1 to T4 in 3 (Minutes) Challenge?

This on-line event highlights UT San Antonio research projects from a variety of disciplines across the translational science spectrum. Presenters deliver a 3-minute, on-line presentation using a single slide and explain their research in clear, accessible language to a live on-line audience of community members, students, and faculty.

WHY SHARE RESEARCH FINDINGS?

Help make research accessible to everyone. Share your work in a way that community members, students, and researchers from different disciplines can understand, connect with, and apply to improve health and well-being.

PRESENTER CATEGORIES AND AWARDS

This event is open to students/trainees in a Translational Science program of study at UT Health San Antonio.

Community members who are part of a community-academic partnership who have received IIMS funding to conduct a community-engaged research project (i.e. CE Small Project Grants) are also eligible.

Presenter categories include:

1. Community Members
2. Translational Science Graduate Students (includes MSCI, PhD, and T32 Pre-docs)
3. T32 Post Docs
4. K12 Faculty

Travel Award Prizes up to \$500 available!
