

Student Activities in Mentored Research

The backgrounds and research interests of all graduate students are unique. As a result, the types of activities that will benefit the research training endeavors of each student will be similarly unique depending on the specific research project. The information below is designed to facilitate the organization, planning, and record keeping of the Mentored Research course (TSCI 6097). **Note that for all activities associated with this course, approval must be provided by a Course Director *prior* to undertaking the activity.**

Listed below are possible activities which may be undertaken as a part of the Mentored Research course. Please use this as a starting point in defining your specific activities during the Mentored Research course. Details of your activities must reflect the number of semester hours of credit associated with your Research Project (3 hours/week for a semester = 1 semester credit hour).

Please use this form to demonstrate the proposed progression to the MSCI-TS COGS approved research project. This can include but is not limited to:

- Strategizing/Mentorship Meetings
- Obtaining regulatory Approvals (IRB/IACUC)
- Development/Administration of consent documents
- Participant recruitment
- Data extraction/Chart review
- Data analysis/Quality assurance procedures
- Development/Drafting of manuscript structure/Concept

During a given semester, all students engaged in Mentored Research (TSCI 6097) must submit a Semi-Annual Evaluation Form to the MSCI-TS COGS on either August 31st or February 28 dependent on the semester. Students are also expected to submit annually on August 31st, their signed Compact agreement with their Supervising Professor. The Semi-Annual Evaluation form will be used to gauge your level of participation, commitment and your role in the completion of the approved research project. Satisfactory completion of this course (and the associated semester credit hours) will be dependent upon submission/approval of these records.

Planned Student Activities

Activities added or removed require submission of a revised form and approval by the Course Director prior to action.
