

TEX-IS Research Network News Notes

Issue 2 - December 2020

Texas Implementation Science (TEX-IS) Research Network

building capacity across the Texas CTSA's through shared resources, information, and opportunities

Greetings Members of the TexIS (Implementation Science) Research Network. This is our 2nd outreach message to those of you who attended the January 2020 Workshop on Demystifying Implementation Research...and more.

Because (a) Implementation Science is a new field and (b) Implementation Research typically requires multiple sites, we believe that monthly news notes would expand our scientific capacity. Our goal is to share resources, information, and opportunities across the Texas CTSA's to advance our capacity in Implementation Science & Research.

These Tex-IS News Notes are sent to the Tex-IS listserv, monitored by Elisabeth DeLaRosa of our Institute for Integration of Medicine & Science, UTHealth San Antonio.

JOIN THE TEX-IS RESEARCH NETWORK LISTSERV

Those who did not attend the Workshop can JOIN THE LISTSERV to receive these monthly emails. Request to be added to the listserv here: <https://redcap.uthscsa.edu/REDCap/surveys/?s=3PNDDA8473>.

REGISTER NOW - SHORT TIMELINE

This conference continues to be THE seminal event for the science and research of dissemination and implementation in health. This year the virtual conference registration is \$250 for 3 days of the

nation's latest developments in these quality improvement fields.

Take this opportunity to VIEW THE AGENDA to get a sense of the cutting edge of D&I for practice and for research...even if you don't attend, the abstracts are very informative. <https://academyhealth.confex.com/academyhealth/2020di/meetingapp.cgi/Home/0> Search the "speakers" list and you will find the "biggies" in the field presenting (Proctor, Damschroder CFIR, Russel RE-AIM, Curran Hybrid Types, JD Smith, Fernandez, etc.)
