

IIMS/CTSA 9th Annual Frontiers of Translational Science Research Day May 2, 2018

The Institute for Integration of Medicine & Science (IIMS) at the University of Texas Health San Antonio (UTHSA), in partnership with UT San Antonio's (UTSA's) Research Centers in Minority Institutions and Department of Biomedical Engineering, would like to invite you to the 9th Annual Frontiers of Translational Science Research Day – **May 2, 2018** in San Antonio, TX. We want to showcase posters that illustrate either completed or on-going research projects in Translational Science. We welcome submissions from UTHSCSA and UTSA, as well as all IIMS/CTSA partnering organizations. This year's Research Day theme is substance use and abuse, including the rapidly evolving opioid crisis. Our guest scientist, Dr. Sharon Walsh from the University of Kentucky, works in this area and we are especially encouraging the submission of posters that deal with the topic, although studies on any aspect of translational and clinical research are welcome.

Submissions Invited From:

- Students
- Clinical Fellows
- Post-doctoral Fellows
- Instructors/Assistant Professors
- Associate Professors/Professors
- Other

Deadlines:

- Abstracts should be submitted electronically by **April 6, 2018**.

Requirements:

Submission Process: Participants should submit a one-page abstract ([click here to submit form](#)) that includes the title, all authors, background and purpose of the study, methods, results, and conclusions, as well as the name of the presenter and their type of position or appointment. Please contact Minnie Mendez at mendezmm@uthscsa.edu with any questions or concerns.

Poster Presentations:

All abstracts will be accepted for poster presentations. Previously presented posters and recently completed projects are welcomed. There are also limited funds available through the IIMS for poster printing, but only for those who register early!

Awards:

Up to \$500 domestic travel awards will be given in each applicant category. Some restrictions apply.

Please forward this invitation to any of your colleagues who may be interested.

The project described is supported by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health (NIH), through UL1 TR001120. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH.
