Parkinson’s Foundation
The Parkinson’s Foundation makes life better for people with Parkinson’s disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson’s community.

Our Impact
Funds raised through Moving Day support the Parkinson’s Foundation mission by delivering expert care to more than 193,500 people living with Parkinson’s; investing $4.2 million in research aimed at better treatment and care; and providing free resources for people living with Parkinson’s and their families.

Moving Day
Moving Day is an inspiring and empowering annual fundraising walk event that unites over 20,000 people around the country living with PD, their care partners and loved ones to fight Parkinson’s. Moving Day is more than just a walk. It is a celebration of movement – proven to help manage Parkinson’s symptoms. Moving Day is among the largest Parkinson’s events in the country and provides great brand exposure to thousands of people in the Parkinson’s community.

The health and safety of participants, sponsors, volunteers and staff are our top priority. Spring Moving Day events will move forward in person where permitted to do so, and always in accordance with local and state health guidance and regulations.

New this year – participants that feel more comfortable joining Moving Day from home will be given the opportunity to participate virtually. All partnership levels now include virtual event benefits.

To learn more about Moving Day, visit us at MovingDaySanAntonio.org or contact Debbie Nathan at dnathan@parkinson.org or 214-328-4769.
